A ONE-STOP SOLUTION FOR YOUR BUSINESS NEEDS

Consult

Mtn High Sign + Design provides personalized service and comprehensive project management from the initial consult through sign installation. We guide you through every step of the sign process, first by getting to know you and your business. The more you share about you and your goals the better we can help you achieve them. We will discuss your current signs + graphics and if you have a design concept in mind. The more you share about budget, timeline and vision the better.

Design

Once we align on your needs we will discuss different options to help you get the best designed signs + graphics for your needs. This may take several iterations as we refine the design to ensure you're happy and we are keeping your goals, budget and timeline top of mind. After the design process is complete and you have approved all the designs, your part is done! So you can focus on your business and we will focus on completing your project.

Build

The build process can be lengthy depending on the complexity of your project. However you don't need to worry about anything because we are careful, detailed and relentless about making sure every project is done right. We will make sure that everything being fabricated matches the design we created. We will work to get your sign + graphics built and created keeping the timeline for the project on track and letting you know should anything change. Once your project is ready to go we will reach out to schedule your installation.

Install

We'll set a convenient time for your installation and you get to see your design come to life! Installation ranges from a few hours to several days depending on scope – but we keep you updated every step of the way. And you'll already know all this, because during the design phase we've established and communicated a clear timeline together – we're partners, remember! Upon completion comes the fun part – the photo shoot! We'll take lots of pictures and encourage all of our clients to jump in on the fun if they'd like too. Show off your hard work by striking a pose with your new sign + graphics. Nothing makes us happier than a proud, satisfied customer!

PRODUCTS

Mtn High Sign + Design offers a comprehensive range of products including high-quality custom signs, large format printing, dimensional lettering and illuminated signage designed to meet all your branding and advertising needs. With a focus on precision and creativity & we deliver visually stunning solutions that make your message stand out.

Custom Signs

These signs are tailored to convey specific messages, promote branding, provide information, or serve promotional purposes. They can be made both for indoor and outdoor environments and they are highly versatile in terms of design, materials and size.

Large Format Printing

Large format printing refers to the process of printing digital images or graphics on a larger scale than traditional printing methods. This type of printing is commonly used for producing large banners, posters, murals, trade show displays, and other large format- graphics.

Specialty Films

Specialized types of window & wall films designed to enhance various aspects of building performance and occupant comfort. Most films are made from a polyester base material, which is a durable and flexible polymer that can be easily manipulated into thin sheets.

CUSTOM SIGNS

Custom signs are uniquely designed to meet specific business needs, conveying messages, promoting branding, offering information, or serving promotional purposes. They are versatile for indoor and outdoor use, available in various designs, materials, and sizes.

Business Signs

An outdoor business sign is used to attract attention, communicate information, and promote the business's products or services. These signs are designed to be visible from a distance and convey key messages to potential customers.

Office & Retail Signs

These signs are essential for communication, organization, and aesthetics in the workplace. They provide visual cues for information, guidance, safety, branding, compliance, and general details.

Property Signs

These signs are used by property developers to create awareness and interest in their development projects among potential buyers and investors.

LARGE FORMAT PRINTING

Large format printing refers to the process of printing digital images or graphics on a larger scale than traditional printing methods. This type of printing is commonly used for producing large banners, posters, murals, trade show displays, and other large-format graphics

Wall Murals & Graphics

Wall vinyl and murals are popular choices for school and office decor. Vinyl adheres to flat surfaces, while murals are large, detailed images that cover entire walls.

Window Graphics

Window graphics are a versatile tool for businesses, enhancing storefronts with captivating displays that convey messages, promote products, and reinforce branding.

Custom Graphics

Custom graphics involves creating unique wall coverings with personalized patterns, images, or graphics to match individual preferences and needs.

DIMENSIONAL LETTERS

Dimensional letters are three-dimensional signs or letters used in signage for businesses, buildings, or other establishments. Dimensional letters have depth, giving them a raised, 3D appearance. They can be made from a variety of materials, including metal, acrylic, wood, plastic, or foam, and can be used both indoors and outdoors.

Channel Letters

Channel letters are they are three-dimensional, individually crafted letters or logos that are typically illuminated from the inside, creating a vibrant and eye-catching sign. The illumination is usually achieved using LED lights, although neon tubing was also common in older signs.

Dimensional Acrylic

Dimensional acrylic refers to acrylic sheets that have been shaped, cut, or molded into three-dimensional forms for various applications, particularly in signage and displays. Dimensional acrylic involves adding depth and layers to create a more visually striking effect.

Impact Signs

An impact sign refers to a sign designed to make a strong visual impression or statement. These signs are typically crafted to grab attention and convey a message quickly and effectively, making them ideal for advertising, branding, or important informational purposes.
